DETAILED ACTION

1. This is in response to the Applicants' application filed October 10, 2001. In view of the Applicants' claims, the election to one of the following inventions is deemed necessary. The restrictions are as stated below.

Election/Restrictions

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

Group 1: Claims 1-9 are drawn to a method of operating and a computerized forfaiting exchange to develop forfaiting transactions for settlement.

Group 2: Claim 10 is drawn a method of operating a computerized forfaiting exchange to facilitate a forfaiting transaction.

The inventions are distinct, each from the other because Inventions 1 and 2 are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, each invention has separate utility (See MPEP § 806.05d), specifically demonstrated as follows:

- | | |
|--------------|---|
| Invention 1: | providing a counter party selection document on request to a seller or buyer to view at the web site, where the document contains a list of classes of counter parties together with counter party selection entry facilities |
| Invention 2: | a link to an independent source of financial information; links to standardized forms of undertaking documents |

Because these inventions are distinct for being separately usable, as shown above, examining the inventions together would require searching for a reference

Art Unit: 3691

teaching the unique element(s) of each invention that are not found in the remaining Inventions. This would be quite burdensome, requiring multiple searches, and thus the restriction for examination purposes, as indicated, is proper.

3. Applicants are advised that the response to this requirement to be complete must include an election of one of the inventions 1 and 2 to be examined even though the requirement be traversed.

4. Applicants are reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 C.F.R. § 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently-filed petition under 37 C.F.R. § 1.48(b) and by the fee required under 37 C.F.R. § 1.17(h).

5. A shortened statutory period for response to this action is set to expire **0 (zero) months and 30 (thirty) days** from the mail date of this letter. Failure to respond within the period for response will result in **ABANDONMENT** of the application (see 35 U.S.C. 133, M.P.E.P. 710.02, 710.02(b)).
